Walks difficulty

Please read this carefully.

Ramblers has identified six categories of walks difficulty. See <https://www.ramblers.org.uk/go-walking-hub/how-know-if-ramblers-walk-right-you>

The three categories used in this programme are:

Leisurely

If you have at least a little bit of experience of walking in the countryside and you have a reasonable level of fitness, these walks will be suitable for you. The walks may include unsurfaced rural paths and we recommend you wear walking boots and bring warm, waterproof clothing as appropriate for the season.

Moderate

These walks may include some steep paths and open country walking. They will be at a brisk pace so you will need a good level of fitness and experience of walking in the countryside. Walking boots and warm, waterproof clothing are essential.

Strenuous

These walks will be at a brisk pace and may include hills and rough terrain. They are recommended only for experienced walkers with an above average level of fitness. Walking boots and warm, waterproof clothing are essential. If you are new to walking with the group, please contact the walk leader in advance to check the walk is suitable for you.
